

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Communications (April 29, 1992 through May 11, 1992)

MEETING DATE: May 20, 1992

PREPARED BY: City Clerk

RECOMMENDED ACTION:

AGENDA ITEM

RECOMMENDATION

Information only.

BACKGROUND INFORMATION: The following communication was received between the dates of April 29, 1992 and May 11, 1992.

Attached marked Exhibit A is a letter from Pacific Gas and Electric Company (PG&E) advising it had filed Application No. 92-05-003 with the California Public Utilities Commission (CPUC) in which it requests authority to increase electric and gas rates.

PG&E seeks to recover a total of approximately \$10.2 million in costs for two environmental projects: a groundwater investigation for petroleum hydrocarbons at a former PG&E service center in Antioch (approx. \$240,000) and a soil remediation project at a former manufactured gas plant site in Sacramento (approx. \$9,965,000).

This proposal would result in an increase of electric rates by approximately \$168,000, and gas rates by approximately \$10,037,000. This increase to PG&E's electric and gas rates would be less than one percent.

FUNDING: None required.

TO: THE STATE. COUNTY AND CITY OFFICIALS

Pacific Gas and Electric Company (PG&E) has filed Application No. 92-05-003 with the California Public Utilities Commission (CPUC) in which it requests authority to increase electric and gas rates. PG&E seeks to recover a total of approximately \$10.2 million in costs for two environmental projects: a groundwater investigation for petroleum hydrocarbons at a former PG&E service center in Antioch (approx. \$240,000) and a soil remediation project at a former manufactured gas plant site in Sacramento (approx. \$9,965,000).

This proposal would result in an increase of electric rates by approximately \$108,000, and gas rates by approximately \$10,037,000. This increase to PG&E's electric and gas rates would be less than one percent.

The Commission will hold hearings before acting on the proposed rate changes. Parties at those hearings may offer proposals to the CPUC which differ substantially from those requested by the utility. After considering all proposals presented during the formal hearing process, the Commission will issue a decision. The actual rates adopted may be different than those requested.

If you wish to participate in the hearings or need advice, please write to the Public Advisor, California Public Utilities Commission at 505 Van Ness Avenue, Room 5303, San Francisco, California, 94102. Inquiries about the date, time and place of hearing on the Application may be directed to the Public Advisor.

A copy of the Application and related exhibits may also be examined at the Commission, as well as at the offices of Pacific Gas and Electric Company, 77 Beale Street, Room 3022, San Francisco, California, 94100; or at PG&E's Division Offices in Fresno, Oakland, Sacramento, San Jose, and Santa Rosa.

This notice is given in accordance with Rule 24 of the Rules of Practice and Procedure of the California Public Utilities Commission.
